AHMED HUSSAIN

BDS (Lond), MSc (Lond), DRDP (UCL),
MFDS RCS (Ed), MJDF RCS (Eng)

Ahmed qualified from St Bartholomew's and the Royal London, School of Dentistry in 2006, with Distinction. During his undergraduate dental training, he was awarded the Herman Renson Memorial Prize in Dental Care for outstanding academic achievement. His career began as a House officer at the Royal London Hospital, where he gained invaluable experience working alongside renowned consultants.

In 2007, he went on to complete further post graduate exams and was awarded the Membership of the Joint Dental Faculties at the Royal College of Surgeons of England. In addition, Ahmed was invited to become a lecturer at this college training dental professionals. He also went on to be awarded the Membership of the Faculty of Dental Surgery from The Royal College of Surgeons of Edinburgh.

AHMED HUSSAIN

BDS (Lond), MSc (Lond), DRDP (UCL),
MFDS RCS (Ed), MJDF RCS (Eng)

In 2013, Ahmed completed a Diploma in Restorative Dental Practice (DRDP) from University College London and further progressed in this field, achieving the Masters degree (MSc) at the world renowned Eastman Dental Institute, with distinction and went on to being published in a world renowned journal.

His clinical and research interests include smile design and dental aesthetics, treatment of advanced tooth wear and short-term orthodontics. He is also an Elite invisalign provider.

Dr Ahmed is a principle dentist at Harrow on the Hill Dental and Facial Aesthetics clinic. Visit his instagram page to see his work @dr.ahmedsmiles

AIMS...

This class aims to provide a greater understanding of the theory and practical steps required for the placement of direct composite veneers.

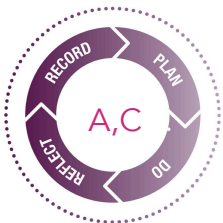

OBJECTIVES...

- 1) To discuss the assessment of a patient prior to placement of composite veneers
- 2) To discuss the materials available to perform direct composite veneers
- 3) To discuss and demonstrate some of the methods available for shade taking
- 4) To discuss and demonstrate the uses of air abrasion within dentistry
- 5) To discuss and demonstrate how to isolate the teeth with a rubber dam & floss ties

OBJECTIVES...

- 6) To discuss and demonstrate the use of different bonding systems
- 7) To discuss the evolution of composite resins and their uses
- 8) To discuss and demonstrate the use of palatal stents
- 9) To discuss smile design and the fundamentals of aesthetics
- 10) To discuss and demonstrate diastema closure
- 11) To demonstrate the correct placement of composite veneers
- 12) Discuss and demonstrate shaping and polishing your restorations

CPD development outcomes met :

A- Effective communication with patients and dental team

C- Maintenance & development of knowledge & skills in my field
